5m Books

Catalogue

Veterinary, Animal Science and Agriculture

Welcome to the 5m Books Catalogue

We are passionate about improving the health and happiness of the animals we farm and live with and regenerating the world we farm in.

Our mission is to publish the highest quality books in veterinary, animal sciences and agriculture.

5m creates books with care, enabling those who

- care for animals within the veterinary and allied professions
- care for farmed animals and pets and want the best environmental, economic and welfare outcomes
- care for the land, the sea and about the future of our planet

Our new titles include *Grown to Heal: Nutrient Quality, Self-Interest and the Regeneration of Human and Planetary Health; Wine, Water & Weeds: Global Winegrowers Regenerating Soils & Climate,* and *Bamboo and Butterfly: Transformative Stories for Climate and Nature Recovery.*

We have some excellent new resources for dog owners and trainers in *The Ethical Dog Buyer's Guide: How to Own a Dog and Avoid Purchasing Pitfalls* and *Misadventures of the World's Okayest Dog Trainer: 25 Cases to Guide Dog Trainers and Behaviorists in Their Career.*

We welcome proposals for new books in the areas in which we publish. We would be delighted to hear from you, please email us: hello@5mbooks.com

Grown to Heal

Nutrient Quality, Self-Interest and the Regeneration of Human and Planetary Health

Antonella Ilaria Totaro, Koen van Seijen

For decades, the story of sustainable food has been one of guilt and compromise: eat less, want less, accept less for the sake of the planet. *Grown to Heal* makes the opposite case. Drawing on eighteen conversations with scientists, farmers, chefs, and entrepreneurs rebuilding the food system from the soil up, this book reveals a simpler truth – the food that's best for us tastes better, sells better, and heals the land it's grown in.

Dec 1 2026 | ISBN 9781917159524
£19.99 | $34.99 | €26.99 | 200pp HB

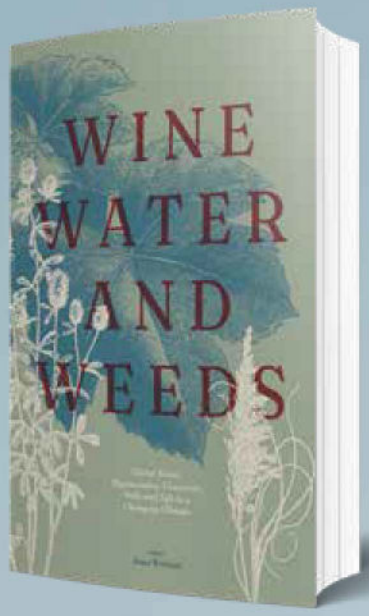
Wine, Water & Weeds

Global Winegrowers
Regenerating Soils & Climate

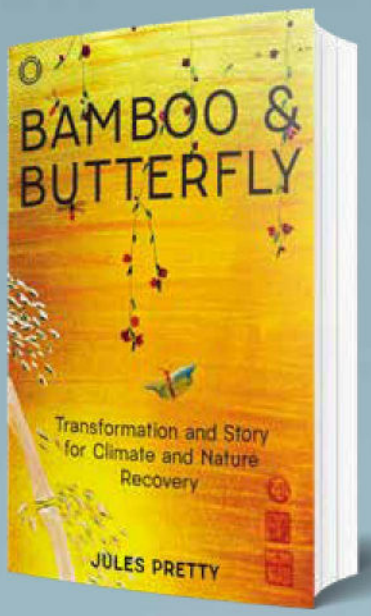
Anna Brittain

Wine, Water & Weeds tells the story of a growing movement that is transforming winegrowing from the ground up.

Across the world's premier wine regions, pioneering growers are rebuilding soil health, restoring biodiversity, improving water retention, and creating more resilient vineyards by working with, rather than against, nature..



June 8 2027 | ISBN 9781917159531
£21.99 | $34.99 | €26.99 | 172pp HB



Bamboo and Butterfly

Transformative Stories for Climate and Nature Recovery

Jules Pretty

Bamboo and Butterfly is a unique blend of fiction and non-fiction: 82 short stories and scenes offering hopeful, grounded responses to the climate and nature crises.

Rather than dwelling on catastrophe or offering only technical fixes, it explores the vital middle ground—where transformation is possible, difficult and deeply human.

June 1 2027 | ISBN 9781917159463
£17.99 | $27.99 | €21.99 | 184pp HB

On the Origin of Soils

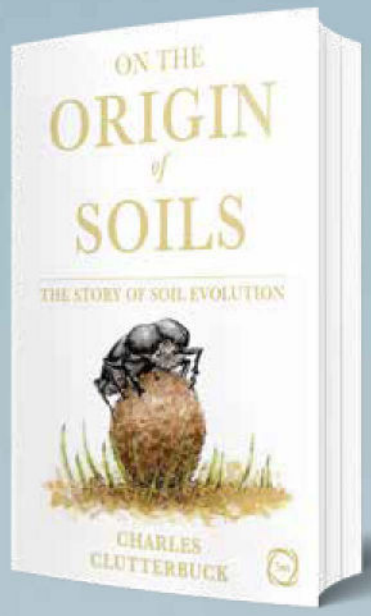
The Story of Soil Evolution

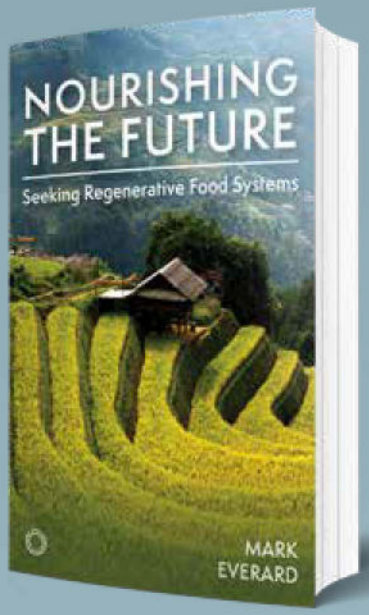
Charles Clutterbuck

Uniquely, *On the Origin of Soils* brings soil animals centre stage, showing how they harbour microbes, transport fungal spores and physically bind soil particles into stable, fertile systems.

By weaving evolution, ecology and practical insight, it opens an unseen world that challenges conventional views of soil as inert matter.

July 13 2027 | ISBN 9781789184457
£25.00 | $40.00 | €30.00 | 250pp HB





Nourishing the Future

Seeking Regenerative Food Systems

Mark Everard

Nourishing the Future explores the global food system as a deeply interconnected whole, from soils, water and their microbiomes to communities, ecosystems and supply chains, and ultimately human health and wellbeing.

Rather than treating food as a series of isolated issues, this book presents a systemic view of extraordinary complexity, tracing connections from grassroots producers to consumers of increasingly modified foods

June 1 2027 | ISBN 9781917159425
£65.00 | $100.00 | €80.00 | 260pp HB

Livestock, Lands, Lifeways

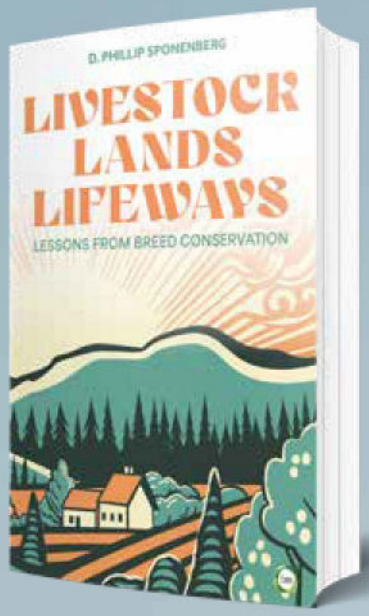
Lessons from Breed Conservation

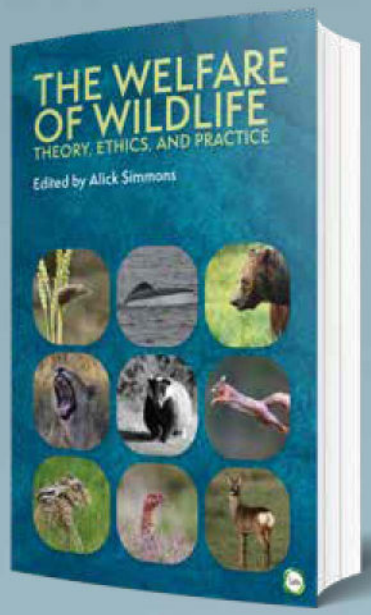
D. Phillip Sponenberg

Livestock, Lands, Lifeways explores livestock breed conservation through vivid, story-driven portraits of rare and traditional breeds from around the world.

Centered on individual species—from horses, cattle, and sheep to poultry, pigs, goats, and waterfowl—it reveals the complex realities behind conserving genetic diversity in a changing world.

March 30 2027 | ISBN 9781789184372
£45.00 | $70.00 | €55.00 | 280pp HB





The Welfare of Wildlife

Theory, Ethics, and Practice

Alick Simmons

The Welfare of Wildlife offers a clear, compelling exploration of the ethical questions and welfare challenges facing wild animals today.

Perfect for curious readers and students beginning their journey in conservation or animal protection, this book lays a strong foundation for understanding how our values shape the way we treat wildlife.

March 30 2027 | ISBN 9781789184211
£45.00 | $70.00 | €55.00 | 300pp PB

How to Untrain Your Horse

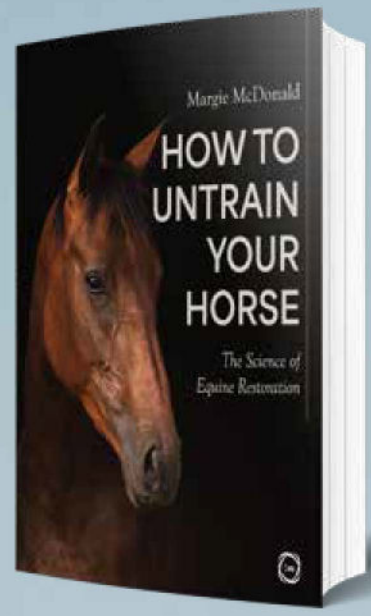
The Science of Equine Restoration

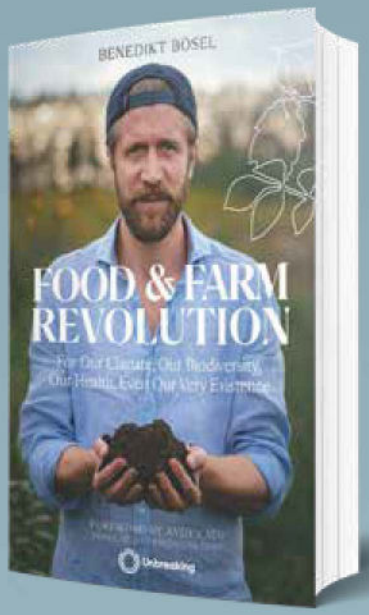
Margie McDonald

How to Untrain Your Horse rethinks traditional horse training by shifting the focus from dominance-based methods to a horse-centric, science-informed approach.

Grounded in polyvagal theory, it explores how the nervous system influences stress, safety, and behavior, and how understanding these responses can transform training.

June 15 2027 | ISBN 9781789184266
£29.99 | $49.99 | €35.99 | 264pp PB





Food & Farm Revolution

For Our Climate, Our Biodiversity, Our Health, Even Our Very Existence

Benedikt Bösel

Climate change, biodiversity loss and soil degradation are three interlinked crises that threaten our very existence – and they all converge in agriculture. The way we produce food and farm must change.

Food & Farm Revolution is a call to action for anyone concerned about the future of food, farming, and our planet.

Jun 2026 | ISBN 9781917159241
£21.99 | $34.99 | €26.99 | 256p HB

Doubt, Hope, Action

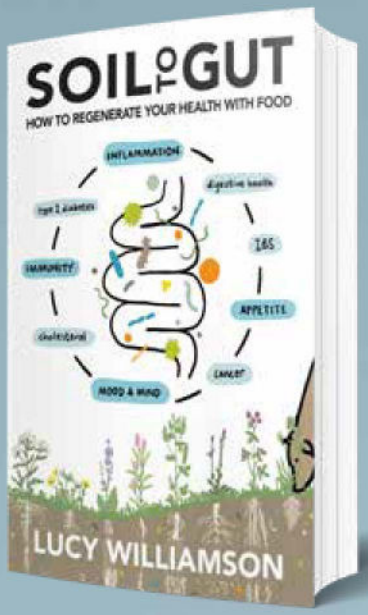
Invitation to a Gentle Revolution

Uffe Elbæk

Doubt, Hope, Action is Uffe Elbæk's journey in search of hope and an invitation to a gentle revolution.

Blending sharp social analysis with heartfelt optimism, *Doubt, Hope, Action* urges progressive movements and all people to recognise their shared purpose—and to unite, mobilise, and act. Now is not the time to sit on the sidelines.

May 2026 | ISBN 9781917159296
£15.99 | $24.99 | €18.99 | 224p PB



Soil to Gut

How to Regenerate Your Health with Food

Lucy Williamson

Soil to Gut cuts through the confusion of modern food choices. Written by Dr Lucy Williamson—Registered Nutritionist and former vet—this practical handbook offers clear, evidence-based advice rooted in the link between soil, food, and gut health. Simple tips help you eat well, feel better, and make choices that support both your health and the planet.

Jul 2026 | ISBN 9781917159333
£21.99 | $34.99 | €26.99 | 212p HB

Intelligent Farming

Regenerative Change, How To and Why You Should

Tim Parton

Intelligent Farming explains why change in land management is essential and shows how to achieve it, drawing on practical experience. It uniquely addresses the mental side of change and management, offering strategies for farmers, land managers, advisors, conservationists, and policy makers committed to a sustainable future.

Jul 2026 | ISBN 9781917159340

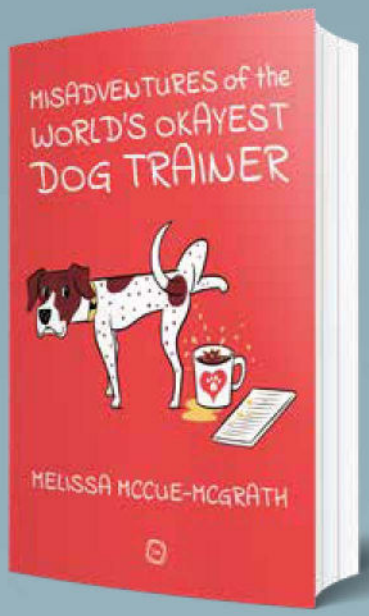
New Books



Misadventures of the World's Okayest Dog Trainer

25 Cases to Guide Dog Trainers and Behaviorists in Their Career

Melissa McCue-McGrath

This is the story of how the author became a dog behaviourist, describing what the job entails and what she has learned along the way. It is told through 25 case studies covering topics that will arise in any dog behaviourist's career, like aggression in dogs, pet loss and grief, embarrassing behaviours, distressed dogs and new behaviour theories replacing outdated dominance-based training.

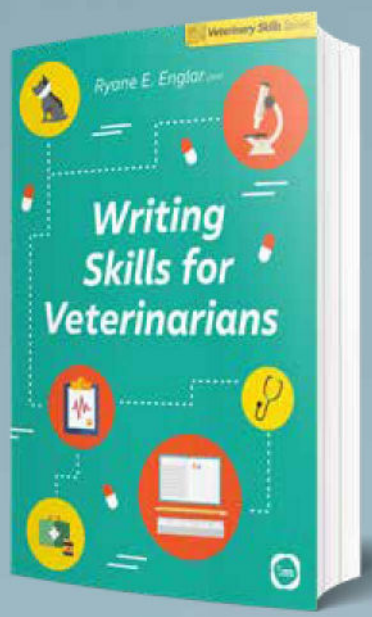
A Guide to Oral Communication in Veterinary Medicine

Ryane Englar

This guide covers why communication skills are important, the structure of typical communications and suggested approaches, veterinary specific communication pathways and sample scripts between vet and client.

Veterinary Skills *Series*

The Veterinary Skills Series provides practical advice for students and professionals in study and research skills, and techniques for written and oral communication in veterinary medicine.



Writing Skills for Veterinarians

Ryane Englar

Communicating ideas in veterinary medicine is a fundamental part of continuing veterinary research and building a career as a clinician.

The purpose of this book is to help increase efficiency and effectiveness in writing professional documents, e.g. writing a concise yet thorough discharge statement to avoid repeated client call-backs to clarify medical recommendations. The book also aims at improving the reader's confidence in writing skills through guided and well-thought out "homework" or practice exercises.

Feb 2019 | ISBN 9781789180350
£34.90 | $55.00 | €41.90 | 280p PB

Research and Study Skills for Veterinary Nurses

Jane Davidson

Aimed at veterinary nurses and technicians this book will guide the reader through the various research and study disciplines required of them. Research and Study Skills for Veterinary Nurses discusses why these academic skills are now required of the veterinary nurse, different types of source material, how to complete written assignments, how to reference properly, how to approach different test questions, exam preparation, how to respond to oral exams, how to complete OSCEs, CPD training and work-based practical assessments.

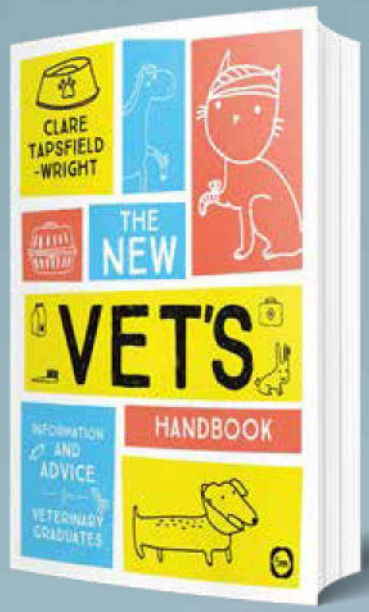
SO, YOU WANT TO...

Following the success of *So You Want to Be a Vet?* and *To Vet School and Beyond*, we are developing a new series of careers books.

If you can write passionately and clearly about your career then we would be delighted to hear from you.



The New Vet's Handbook

Information and Advice for Veterinary Graduates

Clare Tapsfield-Wright

The New Vet's Handbook acts as a guidebook for newly qualified vets on personal and professional issues, covering employment options, interviews, mentoring, working with clients, patients and colleagues, consulting advice, dealing with euthanasia, record keeping, veterinary standards, training and CPD, career options, professional skills and avoiding pitfalls relating to social media, drugs and ethical issues. The book also covers topics specific to vets in small animal and large animal practice.

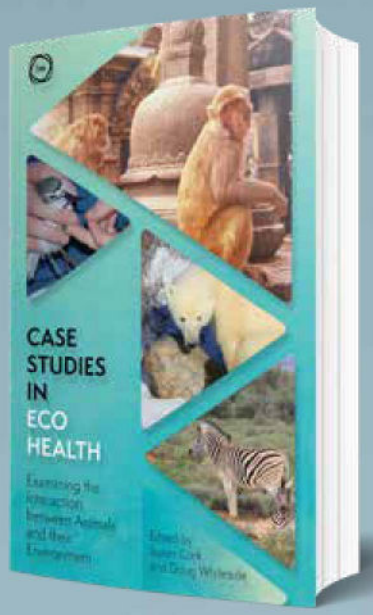
Clinical Veterinary Echography

Edited by Federica Rossi and Giliola Spattini

Authored by an international team of experts, the following topics are covered in depth: the physics-based principles of ultrasound science, interpretation of ultrasound images, scan techniques in ultrasound and interventional techniques in ultrasound.



Case Studies in Ecohealth

Examining the Interaction between Animals and their Environment

Edited by Susan Cork and Doug Whiteside

A fascinating examination of the impacts on animals of environmental change, using the effects on animals at the frontier of ecological disturbance as sentinels for what is happening to our planet. The scope of the book is global, spanning environments from the tropics to the Arctic regions. Encompassing the lives and behaviours of different animals in different habitats gives this book a majestic breadth, presenting a true picture of ecology of the Earth right now.

Veterinary Ethics

Navigating Tough Cases

Edited by Siobhan Mullan and Anne Quain

Veterinary Ethics presents a range of ethical scenarios that veterinarians and other allied animal health professionals may face in practice. The scenarios discussed are not only exceptional cases with potentially significant consequences, but often less dramatic everyday situations.

Shadow's Trip to the Vet

Claire Corridan
Illustrated by Elettra Cudignotto

Written by Claire Corridan and beautifully illustrated by Elettra Cudignotto, this book aims to involve children in dog ownership, by guiding them through the process of taking the dog to visit the vet.

Shadow's Trip to the Vet promotes both preventative and emergent veterinary care in animals by teaching children how to recognise when their pet is feeling unwell and what to do to help them.

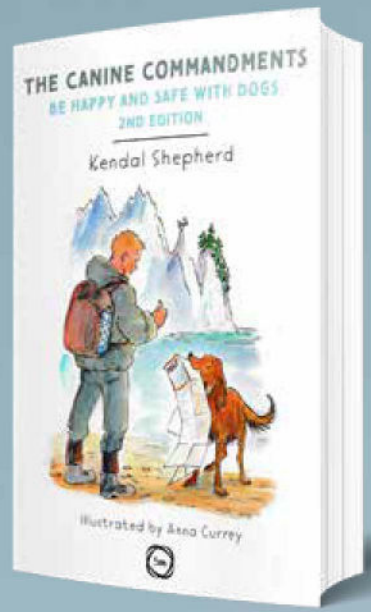
Canine Training, Thinking and Behaviour

Emma K. Grigg and Tammy McCormick Donaldson

The Science Behind a Happy Dog covers both scientific approaches to dog raising and practical solutions to common behavioural problems.



The Canine Commandments 2nd Edition

Kendal Shepherd
Illustrated by Anna Currey

The Canine Commandments guides children, and the adults they live with, to interact more safely with dogs and to minimise the risk of a bite.

This revised second edition of Kendal Shepherd's well known book on dog behaviour includes her famous ladder of aggression and additional new features – quizzes, learning objectives and a glossary – to further engage children, and to support discussion and teaching in classroom settings.

Supporting Pet Owners through Grief

A Veterinarian's Guide to Loss

Ryane Englar and Jill Englar

Aimed at veterinary professionals, *Supporting Pet Owners Through Grief* is an emotional exploration of the philosophical and psychological impact of grief experienced by clients when they lose their pet and how to support them through a difficult time.

Features and benefits include: the importance of the human-animal bond; practical tool-kit approaches that help the vet work alongside the client; managing the process of euthanasia, death and grief.

The Dog Care Handbook

Things I Wish My Vet Had Told Me

Christopher Little

The Dog Care Handbook focuses on helping dog owners with questions regarding their pet dogs, whilst trying to find common ground between them and veterinarians, so that they can both equally have a say in treatment for the animal.

A self-help book written for thoughtful dog owners, it will improve their knowledge of dogs, their relationship with their vet and their understanding of important and common diseases that dogs might develop.

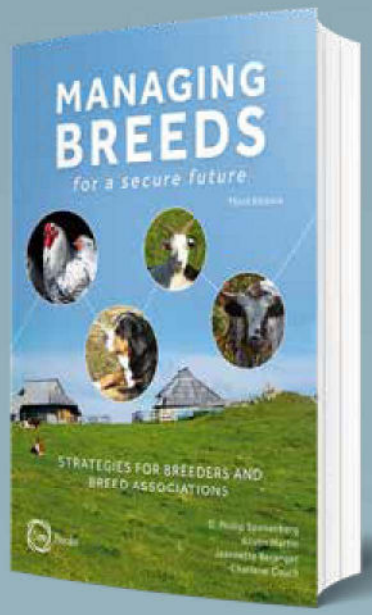
This research monograph provides a thoroughly scientific evidence-based account of the physiology and behaviour of animals for slaughter, analysis of the different killing methods, legislation and operating procedures, lairage and movement, depopulation and handling.



Managing Breeds for a Secure Future 3rd Edition

Strategies for Breeders and Breed Associations

D. Phillip Sponenberg, Jeannette Beranger, Alison Martin, Charlene Couch

Multiple factors can guarantee breeders long-term successful management.

Strategies for success have been detailed in the first and second editions of *Managing Breeds for a Secure Future*. The third edition explores this further, providing more strategies that can assure long-term survival for breeds of livestock, poultry, and dogs.

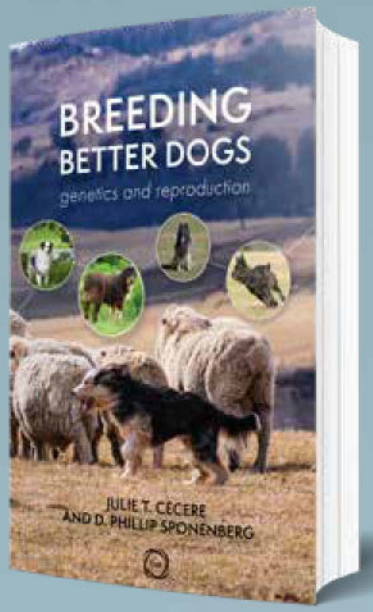
THE LIVESTOCK CONSERVANCY™

The Livestock Conservancy has emerged as a globally respected source for information and procedures concerning rare breed conservation, largely because of its record of close attention to the interactions of the biological and the political aspects of breeds, breed associations and breed conservation.



Breeding Better Dogs

Genetics and Reproduction

Julia Cecere and D. Phillip Sponenberg

Breeding Better Dogs is an essential guide to managing the reproduction of dogs. It breaks down the information in to digestible chunks and enables a broad understanding of the subject. *Breeding Better Dogs* covers:

- the genetic management of breeds
- handling dogs that are used for breeding
- reasons for breeding
- mating dogs, managing pregnancies and whelping
- puppy management
- management of male and female dogs

Oct 2023 | ISBN 9781789182460

Practical Color Genetics for Livestock Breeders

D. Phillip Sponenberg

Breeding for coat color is complicated because many dominant and recessive traits interact to produce the base coat color. Alleles for these occur in pairs, so that the phenotype, or visual appearance, does not always reflect the underlying genotype.

Practical Color Genetics for Livestock Breeders is a guide for breeders on the biology behind coat color in large animals directing breeders on how to implement breeding strategies to achieve desired results.

Six Inches of Soil

How to Heal Our Soils, Ourselves and Our Communities Through Regenerative Farming

Edited by Molly Foster, Priya Kalia, Jeremy Toynbee

Six Inches of Soil, the film and this companion book, is the inspiring story of three British farmers standing up to the industrial food system and transforming the way they produce food – to heal the soil, benefit our health and provide for local communities.

Apr 2024 | ISBN 9781917159005
£19.99 | $29.99 | €35.99 | 360p PB

Unbreaking

Launching with the publication of *Six Inches of Soil*, Unbreaking is our new imprint focusing on the regenerative action we need to take in response to the varied and interlinked challenges we face, encompassing agroecological, socio-political, economic and financial regeneration.

We're having exciting conversations, and welcome book ideas, in the following areas: agri-food system; agroecological & regenerative farming; alternative & local currencies; cooperative & worker-led business structures; degrowth; ecological & alternative economics; land access; social enterprises; universal basic incomes/services.

If you would be interested in submitting your idea, please do get in touch.

Nottingham University Press

Nottingham University Press (NUP) was the academic press of the University of Nottingham, England.

Founded in 1992 by Dr Des Cole and Dr Phil Garnsworthy, the press specialised in scientific and technical publishing, particularly in the areas of animal and food science.

In 2012, NUP was purchased by 5m Books Ltd, who continue to manage and distribute its publications.

The original editions were reissued in 2023 with new covers as paperback print on demand titles.
